Group Tuition Information pack

For Parents

Essential Information

Are groups online or face to face?

Groups are online via zoom. Once a session is booked, a zoom link will be sent to your email address a few days before your first session. Zoom links are usually recurring for that term and a new one sent before the start of the next term.

Who is the tuition delivered by?

All tuition is personally delivered by Sarah Brouner, an award winning tutor for delivery, results success and customer service. A list of awards won and parent testimonials can be found on SBTutoringUK.com

What level/year group is the tuition for?

Details of level and year groups are given on SB Tutoring's website and social media advertising.

KS3 groups are for those in years 7-9, however, I recommend those in top set year 9 are usually better suited to the GCSE group

Foundation GCSE is for those working at grades 1-5 and aiming for a 4/5 pass.

Higher GCSE is for those working at grades 4-9 and aiming for grades 6-9 pass.

GCSE Science is suitable for those doing AQA Triple and Combined (Trilogy); Edexcel combined and Separate (AQA and Edexcel are separate groups).

GCSE Maths is suitable for those doing Edexcel and IGCSE Edexcel.

A level Biology groups are split into year 12 and 13 and are suitable for those taking the AQA course.

How large are groups?

KS3 groups are a maximum of 5 students

GCSE groups are a maximum of 10 students
and seasonal workshops a maximum of 12
students.

A level groups are a maximum of 5 students.

How does it work with different year groups on the same group?

Working with a mix of year groups on the same
session has been tremendously successful.

Younger years cover new areas prior to seeing
these at school, an effective tuition and
teaching technique called priming, making
them more receptive and better at recalling
methods when they are covered at school.

Older years will be able to revise earlier
content, as well as newer content thoroughly,
so that it really sticks for tests and exams.

How does it work with science, as there are 3 subjects to cover?

Chemistry, Biology and Physics are all covered in GCSE groups. Subjects are rotated each week. Parents can email in advance to check subjects for each week.

Does my child have to have their camera on?

Cameras are strongly encouraged, particularly at the start of the session and during discussion, as this helps learning and connection within the group.

These groups are best suited to students who are happy to interact verbally or via chat.

If a student prefers to remain completely off-camera and silent, 1:1 tuition may be a better fit.

The tutor will always have their camera on.

How much engagement will my child receive?

All students will receive attention each session. Individual students will be offered the chance to work through questions and discuss answers with other students on the sessions and the tutor.

Can I my child request topics to cover?

Absolutely!

SBTutoring groups are there to help each student understand areas they are unclear on or want to learn or revise over. Before the end of each session the tutor will ask if anyone has a particular topic they would like to cover.

The tutor will then plan to work through this within the next few sessions, and accommodate for all students.

Requests can be emailed ahead of time and are very much encouraged!

How do I pay? Do I have to sign up for the whole term / year?

Payment is made in advance in half termly blocks via my booking system - Tutorbird
You may wish to try one paid session first (with no commitment) to see if this group will suit your child.

Sessions are priced at £32 each
Please contact me to set up your tutorbird account.

What if my child misses a session or cannot make a session?

All group sessions are recorded, so you will still be sent the recording along with all resources used for the session. This ensures that even if your child is unable to make a session, they can still watch the class and revise over the content. If your child has any questions about the session, they are welcome to email them to me (via you) or can ask in the next session. Refunds will not be given for any missed tuition sessions.

TUTOR

Recording the sessions ensures your child will have unlimited chances to watch the session back and practice, as well as ensuring good safeguarding practice.

Guidance Every

****All recordings are copyright of SB Tutoring and must not be distributed other than to your child.****

How much are group sessions?

KS3 £32/session

GCSE groups are £32/session

A Level groups are £40/session

Groups sessions are a cost effective and convenient way to ensure regular tuition for your child

Will I receive a report?

Students on group sessions do not receive personalised reports, as they would with one to one tuition.

Feedback will be emailed from time to time, and you may of course email SB Tutoring if you have specific questions about your child.

Is homework set?

Homework is not set from groups, although worksheets and resources are emailed to parents each week for independent practice.

Refunds and Cancellations

Terms and conditions and Cancellation Policies are set out on my website

By booking tuition you are accepting all terms and conditions set out on the following website; these can also be emailed on request.

Any missed group sessions will not be refunded

SB Tutoring Policies

If my child wants to leave the group, how much notice do I need to give?

Not many students leave my group, but I realise it may not be for everyone, or they move to one to one tuition as a space opens up.

If you decide to move away from group tuition 2 weeks notice is needed.

If there is still credit for the half term, then this will be refunded, but please be aware you will lose your child's space on the group and it will be offered to another student.

SB TUTORING®

Support and Guidance Every Step of the Way

About Me

I provide bespoke, friendly, and approachable educational support for students from year 7 upwards in mathematics and sciences.

Enhanced DBS checked

Fellow of The Tutors' Association

Services

- KS3 Maths and Science tuition
- GCSE Maths and Science Tuition
- A level Biology, Geography and PE tuition
- Functional Skills Maths and adult numeracy
- Home education consultancy and Maths & Science delivery

SB Tutoring is multi award winning for outstanding quality tuition in Science and Math's and exceptional customer service.
