# Group Tuition Information pack

**For Parents**

# Essential Information

---

## **Are groups online or face to face?**

Groups are online via zoom. Once a session is booked, a zoom link will be sent to your email address a few days before your first session. Zoom links are usually recurring for that term and a new one sent before the start of the next term.

## **Who is the tuition delivered by?**

All tuition is personally delivered by Sarah Brouner, an award winning tutor for delivery, results success and Customer service. A list of awards won can be found on [SBTutoringUK.com](http://SBTutoringUK.com)

# **What level/year group is the tuition for?**

Details of level and year groups are given on SB Tutoring's website and social media advertising.

Typically GCSE groups are split into foundation groups and higher tier groups.

Foundation is for those working at grades 1-5 and aiming for a 4/5 pass.

Higher is for those working at grades 4-9 and aiming for grades 6-9 pass.

GCSE Science is suitable for those doing AQA Triple and Combined (Triology).

GCSE Maths is suitable for those doing Edexcel and IGCSE Edexcel.

A level groups are split into year 12 and 13 and are suitable for those taking the AQA course.

## **How large are groups?**

For GCSE groups these are a maximum of 8 students and seasonal workshops have a maximum of 10 students.

---

A level groups have a maximum of 5 students.

## **How does it work with different year groups on the same group?**

Working with year 10 and year 11's on the same session has been tremendously successful. Year 10's cover new areas prior to seeing these at school, an effective tuition and teaching technique called priming, making them more receptive and better at recalling methods when then covered at school. Year 11's when covering year 10 content, will be able to revise thoroughly, so the content sticks.

## **How does it work with science, as there are 3 subjects to cover?**

Chemistry, Biology and Physics are all covered in GCSE groups. Subjects are rotated each week.

---

## **Does my child have to have their camera on?**

I never force a student to have their camera on during the group, but participating in group discussion and answering questions will be beneficial to all students.

The group can offer a like minded community of students who are in the same boat. Having a camera on also increases engagement. Engagement leads to a more positive outcome.

The tutor will always have their camera on.

## **How much engagement will my child receive?**

All students will receive attention each session. Individual students will be offered the chance to work through questions and discuss answers with other students on the sessions and the tutor.

## **Can I my child request topics to cover?**

Absolutely!

SBTutoring groups are there to help each student understand areas they are unclear on or want to learn or revise over.

Before the end of each session the tutor will ask if anyone has a particular topic they would like to cover.

The tutor will then plan to work through this within the next few sessions, and accommodate for all students.

Requests can be emailed ahead of time and are very much encouraged!

# **Do I need to sign up for a term?**

No you can chose the dates you wish to book. Most students like to sign up for a term, but it's not essential. Please be aware that sessiona are on a first come first served basis, so I recommend booking in advance.

---

Bookings are made via my website and are paid for at the time of booking.

**SBTutoringUK.com**

## What if I miss a session?

Sessions are recorded and you will be sent a copy of the recording to download via a secure link (WeTransfer) after the session. This ensures your child will have unlimited chances to watch the session back and practice. If you have booked, but miss a session you will receive the recording so can ensure your child doesn't miss out of the session (usual fees apply).

**\*\*All recordings are copyright of SB Tutoring and must not be distributed other than to your child.\*\***

## **How much are group sessions?**

GCSE groups are £30/session

A Level groups are £40/session

Groups sessions are a cost effective and convenient way to ensure regular tuition for your child

## **Will I receive a report?**

Students on group sessions do not receive personalised reports, as they would with one to one tuition.

Feedback will be emailed from time to time, and you may of course email SB Tutoring if you have specific questions about your child.

## **Is homework set?**

Homework is not set from groups, although worksheets and resources are emailed to parents if relevant and for independent practice.

# Refunds and Cancellations

**Terms and conditions and Cancellation Policies are set out on my website**

By booking tuition you are accepting all terms and conditions.
